- Technologies used *Python, Flask, Tensorflow, Keras, Firebase, Flutter, Dart* and Key Deliverables were *REST API, Flutter Application*.

PROFILES

- **Codechef:** aag_the_fire
- **Github :** aadishgoel2013
- **LinkedIn:** aadishgoel
- **Codeforces:** aadish
- **Hackerrank:** dangerDon
- **Hackerearth:** aadish1

SKILLS

- Python 3
- Go Golang, C/C++, GCP
- Node.js, React
- Data Structures and Algorithms
- Flutter | Kotlin | Android
- Unity 3d | Vuforia | Blender
- Django | Flask

REWARDS AND RECOGNITION

- All India Rank 1 and Global 6 Codechef October Long Contest 2019 Div 2
- ASQ Intra College Case Study Competition Winner
- Cyber Olympiad 2014 State Rank 2 and International Rank 199

EDUCATION

The NorthCap University, Gurgaon — July 2015 - May 2019
B.Tech. in Computer Science
CGPA - 9.49/10
Honours: In NCU Deans List for All Straight 4 years.

D.A.V. Public School, Panipat
XII : 88.60%
X : 8.8 CGPA

PROJECTS

Undefeatable Tic Tac Toe Bot
https://github.com/aadishgoel2013/Bot-Program-In-C
- Built an Undefeatable bot for the game.
- Competed in an open competition for bots on HackerEarth and is still undefeated to the current date.
- Developed in C++ and later interfaced with Python 3 for Better User Experience

Music Listening Website
https://github.com/aadishgoel2013/dangerDon
- A full-fledged website to listen to music and give ratings.
- Real-time ranking capabilities based on user engagement and comments.
- with Python and Django

User Engagement Estimator
https://github.com/aadishgoel2013/Face-Recognition
https://github.com/aadishgoel2013/Smile-Detection
- Real-time user mood estimation.
- To figure out user interest while using a product
- For tracking real-time user reaction during a event.
